Through gashes in clay  
I stumbled to quay  
Nick of time boat  
Molting off spray  
I leapt onto bow  
If I waited 'til now  
I'd be transfixed on a love  
That sailed away

I cauterize the heart string  
To see that when this arboreal  
Left Beijing  
What I could be  
What we would know  
What I could bestow  
But love is what I bring

Leave all of our cares  
Let them rot

Troubles come in all shapes  
And what we veil it drapes  
That stifles what we can imbue  
Let our hearts beat anew  
(Let our hearts be a jubilee)  
What we believe in is love

Everything you believe in I do  
Love kindly feed me  
Feel everything is free

Look foray  
When the clouds are piling in play  
Passing life each day  
Went up harbor wall  
That couldn't hold  
We are in each other's fold  
My dearest friend
