I didn't think that I knew of all the odds seeing that the
way shun to the flaweds
I'm on the prowl baby can't you be, with me leacherous
for fell en knee
We gonna go down slow into the wanes into the pains
((prolitarian))
(I'm pro let tear it off apart places we won't be caught
And bring your blanket stare I can't only you got me
moving there)
We're gonna bring what we all know to be the case and
the carry you there
(Care)
So come here
And give in

The pussy pass and they glide down to forgot
You know the way we always think and thought
You got an eye and a shape and a I move to your gait
I'm gonna unlock and let us go inside the Garden of
Earthly Delights tonight
We know everything is scared utter shitless and see of
the fitness
The fire and the all we will never die
(The flowers without your adding more in the
tribulations inner I adore
Adorate bed my mate see all on the thin ice skate ice
on no body skin we're never in
Wolves' stare will cry and we won't even know that we
will die)

So come here
And give in
So come here
We're bedding deeper in sin
So come here
And give in
Come on
We're bedding further than you've ever been

Why do you want to go home with such a duche-bag
Everything that he says lies triple slag
I'm gonna fashion to gather all his lies

Together and make a huge balloon
That says 'I'm an asshole'
You do not read it
I see it certain 30, 000 miles away
But you think all he cares about is the sway
With his swagger ways and candor
In the can't to can not see the light in all the thought
I'm gonna give you real things
To make you think and I hope
In all the ring around us brings
