So you saw that fire in the sky
Well I think that's so cool
And I know that nothing will change you
You are nobody's fool

Cynthia
Won't you take me to
Pyramid Lake with you
We could watch the spaceships
Maybe they'd take us on a trip
Into that never ending sky
Into that wide and endless night

And you stood in their beam of light
And they showed you the bones on the moon
Well I hope I get to go there
With you real soon

Cynthia
Won't you take me to
Pyramid Lake with you
We could watch the spaceships
Maybe they'd take us on a trip
Into that never ending sky
Into that wide and endless night

We could get there
Before the sun sets
And we'd put up your tent
Watch the stars
Dance all night
And watch that sun come up

Cynthia
Won't you take me to
Pyramid Lake with you
We could watch the spaceships
Maybe they'd take us on a trip
Into that never ending sky
Into that wide and endless night
