I don't know where it all began

I only know what I was told

Now rumours fly in from everywhere  
People got so cold

I don't mind  
I'll stand anywhere with you anytime  
Oh when the night is falling  
Conversation just wastes your time  
Oh I'll fall in line  
I'll fall in line  
People make up the wildest things

I know that sometimes they're true

But you don't have to hide a thing from me

I've had my troubles too  
I've got time  
To keep walking beside you forever

Girl I don't mind  
When the streets are empty  
Oh and you're feeling lost and left behind  
I'll fall in line

I'll fall in line  
Solo  
I've seen the shadows coming over you

When some fool drags you down  
You know they're watching everything you do

Don't let it turn you around  
Walk on by  
Don't let the world of suggestion catch your eye  
Oh when the night is falling girl and you need  
Someone to hide behind  
Oh I'll fall in line

I'll fall in line  
I'll fall in line
