

Blue Rodeo "Stage Door"

Visit "[Stage Door](#)" on MotoLyrics.com

I know I can't hide this fear inside
Still my friends understand
Things have worked out

Much as you had said

Ain't no mystery what I need
Is understanding
And your sweet sympathy

A steel string guitar and a little weed
And someone to keep me company

Someone to keep me company
Through the stage door
Down the alley and
Sometimes I wonder
What I

What I do it for
Ain't no mystery what I need
Is understanding

And your sweet sympathy
A steel string guitar and a little weed
And someone to keep me company

Someone to keep me company
