One night she cam, in from the cold
Like a long lost friend, someone to hold
She said, don't ask me now
Cause what's in a name
But when I'm gone you'll never be the same
So won't you hold me now
Can't you see what I came here for
Save me now, cause I now
We'll keep on headin' through
Lights and shadows
We're talkin' lights and shadows
She came from far, with so much to tell
Cause when you're lookin' for love
You can walk through hell
Just like a ricochet, she might come and go
And one look can say more than you'll ever know
So won't you hold me now...
Oh lights and shadows
We're talkin' lights and shadows
So won't you hold me now...
Oh lights and shadows...
We keep on headin' through
Lights and shadows
