Give a little bit of lovin' and I'll treat you right  
Give a little bit of lovin' And I'll stay the night  
Just like a gypsy I come to town  
I've been longin' for that girl I left behind  
I might be a fool yeah But come what may  
I've been lovin' every minute everyday  
Give a little bit of lovin' and I'll treat you right  
Give a little bit of lovin' And I'll stay the night  
I don't need nobody I stand alone  
But there's a woman that I like to call my own  
I ain't got the money To make her shine  
But I've got plenty other ways to make her mine  
Give a little bit of lovin' and I'll treat you right  
Give a little bit of lovin' And I'll stay the night  
You got to give me some lovin'  
I'm gonna make you feel so good  
She's got a deadly eyes a twisted mind  
She's one in a million One of a kind  
Cold chills runnin' down to the bone  
She gives me lovin' Like I've never known  
We tumble and roll 'Til the break of day  
She's so wild Blows my world away  
With her there's nothin' I wouldn't do  
Baby we've got something to hold on to  
Lay it down and it's plain to see  
The woman's got the best of me  
Give a little bit of lovin' and I'll treat you right  
Give a little bit of lovin' And I'll stay the night
