We're gonna rock so hard, we're gonna let it go
If ya want it loud, hey let me know
It's been a while since we've been gone
We had it tough, now the hurt is gone
Well, when the day is done, when the day is through
Listen close this is what we'll do
Comin' down like a ton of lead,
Like a ton of lead that's what I said
It's been a long time comin'...
Hey, you can tear us up, tear us down
Before too long we'll be back around
Fallin' in, fallin' out
Well this time around there ain't no doubt
We'll walk on through the break of day
Once again we'll be on our way
Ain't no time to wonder why
Just try to keep the drive alive
It's been a long time comin'...
