Hey I'm the voice in your head
A friend that you long left for dead
I've been busy
Did you miss me
No you're not paranoid
I'm back to fill the void
I think you understad
I'm the getaway plan
I'm the shiver that runs up your spine
A strange kind of peace of your mind
You've been lonely
I'm the only
I know you're damage goods
You did the best you could
I think you understad
I'm the getaway plan
Can you feel me
Can you reach me
I've lived a thousand lives
Feels like I've just arrived
I think you understad
I'm the getaway plan
