"Years"

Are there years between us?
Have you seen me when i didn't see you?
Its so good to know that someone can
Love me as much as i think you do...
Do i love you?
Your a fool if you don't know
Or maybe i'm so good at hiding
Even the truth is hidden from you
But somehow i doubt that your
As smart as i could ever be
But still my question remains
Is our love meant to be?
Cause it feels too good to be true
Can someone love me so much more than i love myself
Is this all true?
Does love resonate in your heart
Like the songs say it does?
I can't even begin to believe my dreams
when they actually come true...
