Today is a good day
To start all over again
I finally picked up all the pieces
That we tore and scattered in the wind

You know my love is still here
It never went too far away
So many feelings heard so clear
I've been waiting for a chance to say

I never should have said goodbye

I'll tell you why

You built me up
To set me free
When my heart hit the ground
You were right there for me

You gave me life
And now I believe
Everything that I loved
was right in front of me

... All because of you

Tonight is my last chance
To never let you get away
Just my beautiful disaster
And your love can never be replaced

It's been such a long time
I never should have said goodbye

I'll tell you why

You built me up
To set me free
When my heart hit the ground
You were right there for me

You gave me life
And now I believe
Everything that I loved
was right in front of me

After all that's been said and done
After all that's been said and done

You're still my only one

After all that's been said
It's been a beautiful disaster

You built me up
To set me free
When my heart hit the ground
You were right there for me

You gave me life
And now I believe
Everything that I loved
was right in front of me

It's been a beautiful
disaster

Only you build me up

It's been a beautiful
disaster

Only you build me up
