Well it's been another dog gone day
I'm ready for this trashed out town
I'll be doing all those crazy things
That make the others heads spin around
They're tellin' me the ride ain't worth the fall
Oh, but stop me if you can I want it all.
Cause I'm ready, yes I'm ready
To break free, ready to break free
Ooh ooh ooh, break free
I'm ready to break free
I'm tired of just killing time
Talkin' 'bout the days gone by (bye bye)
So I'm takin' on the world tonight
I'm out to let my spirit fly
Oh, they say what goes around will come around
But there's nothin' in this world to hold me down
