I'm calling out tonight. I wanna feel his might
And I won't be quiet.

Cause I've seen the truth. Wanna fight for you.
And we just can't buy it.

This is your life.
Are you gonna stand by. And take

One last look at Eden. Just stop believing and walk
away.
This could be our moment. Time that we own it.
I wanna hear you say Come with me.

Are you still not there. The ones who really care.
Who's open minded.

This is your life.
Are you gonna stand by And take

One last look at Eden. Just stop believing
And walk away.
This could be our moment. Time that we own it.
I wanna hear you say Come with me.

[Guitar solo]

One last look at Eden. Just stop believing
And walk away.
This could be our moment. Time that we own it.
I wanna hear you say To night
Come with me.
