"Never Gonna Say Good Bye"

Another day you didn't go to school,
you were in my arms breakin all the rules
Another night without you by my side,
This ain't the way to spend our lives
Sometimes I wanna leave this town
Find a better place where they won't put us down
I know time is on our side, so I'm hangin on somehow
Never gonna give you up
Never gonna say goodbye
As long as were together baby we'll survive
Never gonna let you go
Never gonna turn away
Cause I don't wanna lose you
Never gonna give you up
People talk about us on the street
Rumors fly everytime we meet
But we don't never have to be ashamed
Our love is real it ain't no game
You say that we should hide away
I promise baby we don't have to be afraid
I know time is on our side, we've just gotta hang on
somehow
