Nothing looks quiet the same
I see people and places in a new light again
There's a grace ascending to a broken sky
Now I know there's a reason why I feel so alive

Cos tonight there's a new love in town
Waking emotion I thought I'd never find
Yes, tonight, how you turned it around
I wanna tell the whole world there's a new love in town

It's been a strange kind of low
Always held my head up high, little did I know
That my rose-tinted reality would soon fall apart
Just by holding you gently there's a hope in my heart
I'm out of the dark

So tonight there's a new love in town
Waking emotion I thought I'd never find
Yes, tonight, how you turn it around
I want to tell the whole world there's a new love in town

And everyone I met has made me what I am today
And every choice I made has led me here today
And every time I see your face I find my way

Oh yes, tonight there's a new love in town
It's waking emotions, thought I never thought I'd find
Yes, tonight, how you turned it around
I wanna tell the whole world there's a new love in town
There's a new love in town
