When the word is out from the other side, she turns
around
'Cause day and night she's waited patiently
Now a different kind of world out there is to be found

It's over now for everyone to see
This is the way it's meant to be

It's the way that we make things right
It's the way that we hold on tight
I know it's the sign of the times

It's the way that we make things turn
It's the way that we live and learn
I know it's the sign of the times

It wakes him up, he turns around
And now he's gone
He's been waitin' for this moment desperately
Now the time is right, he's turnin' back, he's going
home

It's over now for everyone to see
This is the way it's meant to be

It's the way that we make things right
It's the way that we hold on tight
I know it's the sign of the times

It's the way that we make things turn
It's the way that we live and learn
I know it's the sign of the times

And every time it's on my mind
I feel so insecure it worries me to end up here alone
But everytime I realize, I need her more and more,
yeah
I'd never make it on my own, oh God

It's the way that we make things right
It's the way that we hold on tight
I know it's the sign of the times

It's the way that we make things turn
It's the way that we live and learn
I know it's the sign of the times

It's the way that we make things turn
It's the way that we live and learn
I know it's the sign of the times
