Don't touch me, don't talk to me about it
Don't touch me, don't talk to me, ever again
I don't feel anything
All sensation is closed to me
I saw you put the needle in
(I can still see) everything
Don't touch me, don't talk to me about it
Don't touch me, don't talk to me, ever again
Take me to a quiet place
Throw me in the water (Bubble up, bubble up)
Watch the bubbles surface as (Bubble up, bubble up,
bubble up, bubble up)
I'm slowly sinking under (Bubble up, bubble up, bubble
up, bubble up)
Bubble up (48X)

Don't touch me, don't talk to me about it (Don't talk to
me)
Don't touch me, don't talk to me, ever again, ever
again, never again, never again, never again, never
again
Don't touch me, don't talk to me about it (Don't touch to
me)
Don't touch me, don't talk to me, ever again, ever
again, never again, never again, never again, never
again
Don't touch me, don't talk to me about it
Don't touch me, don't talk to me, ever again, ever
again, never again, never again, never again, never
again
Don't touch me, don't talk to me about it, don't talk to
me, don't talk to me
Don't touch me; don't talk to me, ever again, ever
again, never again, never again
