Lift me up, take me down
You can turn my world around
I can hear, what people say
It doesn't matter anyway

We're not the same but, so much alike
You are my brother, my sister tonight
We've got...

One life, living together
In one life, let us be free
One life, you take my troubles away
Light up my day

You came here, in the night
Took the worries off your mind
In your eyes, beneath your skin
I feel the pain you're in

We're not the same but, so much alike
You are my brother, my sister tonight
We've got...

One life, living together
In one life, let us be free
One life, you take my troubles away
Light up my day

One life, living together
In one life, let us be free
One life, you take my troubles away
Light up my day
