Here she comes, that girl with the sacred heart
Pickin' all the flowers from the cemetery park
I didn't know anybody could be so dark as her
Here she comes that girl with the vampire grin
Looking for a victim to take her in
Brothers in bloods sisters in sin love her
She said
I want you
I want you
Cause Baby with you
I can be so free
I can be so free
Here she comes that girl with the bloodstained dress
Shot gun humour laden acid test
You could tell by her lips
She could eat the rest just like that
Here she comes that girl with the wicked smile
Beatin' on a pony up a crooked mile
You should see her listen to voodoo child on her back
She said
I want you
I want you
Cause Baby with you
I can be so free
I can be so free
I can be so free
I can be so free
I want you to take me there
Cast a spell with your long black hair
If I never wake up for a million years
I wouldn't care, when I'm with you
I can be so free
I can be so free
I can be so free
I can be so free
