I could give you (a mirror)

How can you be so cold
With my arms to hold you?
How can you be so cold
With my arms to enfold you?

I could give you - a mirror
To show you - disappointments
I could give you - a history
Could you ever listen in to me?

How can you be so cold
When there's a fire burning?
How can you be so cold
When all the ice is melting?

I could give you - a mirror
To show you - disappointments
I could give you - a history
Could you ever listen in to me?
