(Sister)

Once upon a time
I was looking for a girl like you
Like a thunder in the night
Felt a fire burning so brand new
She was scared and so much younger
And she never learnt of what to do
That's why I'm telling you

Sister
Come and move your body
Sister
So come on and make my day
I'm in love and I can make you feel this way
That's what I wanna say

Oh yeah, that's what I wanna say, honey
Come on

When a boy becomes a man
Guess you better know the chance you take
Don't you play your game so fast
Cause a broken heart's the price to pay
So let me try and make it better
Cause there's so much more that we can do
That's why I'm telling you

Sister
Come and move your body
Sister
So come on and make my day
I'm in love and I can make you feel this way
Oh baby

Sister
Get it right the first time
Sister

Don't you wait another day
I'm in love and I can make you feel this way
That's what I wanna say

(Sister) Let's make it better
(Make my day) I just can't wait
(Sister) It's now or never
(Make my day) Don't you walk away?
(Sister) Let's stick together
(Maky my day) Night and day
Baby, won't you show me the way?
(Sister) Oh yeah
(Come and move your body) Oh...
(Sister) So come on and make my day
Cause you're in love and I can make you feel this way
(Hey, hey) Come on everybody

Sister
Get it right the first time
Sister
Don't you wait another day
I'm in love and I can make you feel this way
Oh baby
Sister
