Take a chance, and take a hold  
Give it all and turn it to gold  
Time has come, so make a stand  
On your own , and take command  
Beat the odds, you will survive  
Stronger now, you feel alive  
Rising up, get into place  
Feel it in your heart,  
When you are, winning this race  
When I look into your eyes  
It comes, as no surprise

This is our night, fly to the top baby  
Yes we can do it, just wait and see

This is our night, time for a change baby  
Get rid of the old, take a hold, and be free

This is our night, fly to the top baby  
Yes we can do it, just wait and see

This is our night, time for a change baby  
Get rid of the old, take a hold, and be free

This is our night

Counting down, the night of nights  
Getting now, to stand and fight  
Don't back down, just look within  
Do it now, I know you will  
When I look into your eyes  
It comes as no surprise
