Performed by Knut Anders Sjørum  
Placed #24

High  
I have tried every way  
To get to the heart of your soul  
'Cause everything that you deny  
Could be there if you let me know  
I wanna heal every wound in you  
To finally make you believe

High over the rain  
There's still a sun that could ease all your pain  
I always try holding your heart  
Bringing you high

Try to make you see the light  
When sorrow grows deep in your mind  
And seize the day, not asking why  
There is so much for you to find  
I wanna bring you the wings to fly  
To never be broken again

Oh...

High over the rain  
There's still a sun that could ease all your pain  
I always try holding your heart  
Bringing you high

I just wanna open your closing mind  
Your life can't be worth all your sacrifice  
There is a light over you  
Please let it through

High over the rain  
There's still a sun that could ease all your pain  
I always try holding your heart  
Bringing you high

Oh...

High over the rain  
There's still a sun that could ease all your pain  
I always try holding your heart  
Bringing you high  
Bringing you high
