Every time you close your eyes,
I can see the light that you're hiding
Like a shadow in the sky,
of an eagle's wing when it's gliding

Don't be afraid; I'm not gonna run away
Don't let it wait, until it's too late,
for what you have to say

Open your heart,
show me the pain,
it's all part of who you are
Tell me your dreams,
your hopes and your fears,
just open your beating heart to me

Everything you share with me,
turns a little darkness into light
And that is how we're meant to be,
truth will keep the light shining brighter

Open your heart,
show me the pain,
it's all part of who you are
Tell me your dreams,
your hopes and your fears,
just open your beating heart to me

Reach out, I'm right by your side,
Exactly where I want to be
The sum, of you and me, is we

Open your heart,
show me the pain,
show me who you are
Tell me your dreams,
your hopes and your fears,
just open your heart to me

Open your heart,
show me the pain,
it's all part of who you are

Tell me your dreams,
your hopes and your fears

Let go and just show me who you are
Hey your heart
Let go and just show me who you are
