Oh, hey hey, baby love me back today
Never ever sink my ship and sail away
Oh, uh oh, baby don't shut me down
Give me all the love I need and I'll be gone
I'm a lonely sailor, drinking the night away
My ship is made from hope, she's searching for
your bay
But you don't care
Hop up to my ship, baby I'll make you fly
You love me and you know that baby, don't you lie
Like me like I like you and say
Na naninananina
Oh, oh oh, we need a bit of rock and roll
Baby don't you crush my soul and make me fall
Oh, hey hey, baby love me back today
Don't you ever sink my ship and sail away
Hop up to my ship, baby I'll make you fly
You love me and you know that baby, don't you lie
Like me like I like you and say
Na naninananina,
na naninananananana na na
Pirates, high seas, cautions, cannons and potions
A sailor's passion can always conquer the oceans
Sing with me my children
Hop up to my ship, baby I'll make you fly
You love me and you know that baby, don't you lie
Like me like I like you and say: na naninananina
Na naninananananana na nana
Na nanananananananana
Na nanananananana
Na nanananananananana
Na nana
