Come with me, because it's time to...

Let's party, you got the right to party  
Let's party, you got the right to party

Hey guys, you really know what I like - just like that  
You know that I'm really fine (I like that)  
When it's raining and bad news is on TV  
Don't get crazy

Let's party, you got the right to party

Hey guys, you know what turns me on...  
- Come let it go baby, let it show baby  
Let me know what makes your mind blow, uh  
And makes you loose it at night  
- Don't get crazy

You know it's your right to party

Come with me, because it's time to party  
Join me and let's go to a party (Come on)  
Everybody has a right to party - get crazy  
- Why don't you get crazy, crazy

Come with me, because it's time to party (Oh yeah)  
Join me and let's go to a party  
- You know you really gotta get down  
- Come to a party with me  
- Just party with me

Every little moment is so special for me  
I'm a little bit crazy, crazy, like a baby, uh  
- You got it going baby  
- When it's raining and bad news is on TV  
Don't get crazy

Let's party, you got the right to party

Hey guys, you really know what I like - just like that  
You know that I'm really hot

- Yeah, yeah, yeah, you are
- Don't get crazy

You know it's your right to party

- Come with me, because it's time to party (Yeah)
- Join me, and let's go to a party (Come on)
- Everybody has a right to party - get crazy
- Keep it up, keep the party alive
- Come with me, because it's time to party (Oh yeah)
- Join me and let's go to a party (Uhu)
- Think I'm going crazy right now
- Come to a party with me
- Just party with me

Time to party

- This is true love, baby, yes, it's true
- You got the loving I need and I always will be there for you
- I'm your baby
- Yeah yeah yeah...
- I'm really your baby, yeah yeah....
- Let's go

- Come with me, because it's time to party
- Join me and let's go to a party (Come on)
- Everybody has a right to party â^' get crazy
- Baby, are you ready to keep it up, keep the party alive?

- Come with me, because it's time to party (Oh yeah)
- Join me and let's go to a party (Uhu)
- You know you really gotta get down
- Come to a party with me

- You better get crazy, so once more:
- Come to a party with me
- Just party with me (Yeah)
