Spyat dalini tikhim snom, spyat rybini nad prudom
I dazhdi, i vyetra, pritailis da utra

Spit vyelikiy akean, tolko ti adin vulkan
Agynegriviy starik, nye umolknesh ni na mig

Vslushaysya daiverchiva v golos chelayvyecheskiy
Abratis, pazhalusta, k razumu i k radesti

Navsyegda zabud, vulkan, chem grazil bilim vikam
Ti tiranit mir ustan, i garoy zelonay stan

Ti navyek zabud, vulkan, chem grazil bilim vikam
Abratis, pazhalusta, k razumu i k radesti

Spi ugryumiy velikan, spi nyedryemlyushiy vulkan
Atrikis at vayni, mira day i tishini

Mira yunim i sidim, mira greshnim i svytim
Mira zhizni zimnoy, mira nyebu nad taboy

Ti navyek zabud, vulkan, chem grazil bilim vikam
Abratis, pazhalusta, k razumu i k radesti

Abratis, pazhalusta, k razumu i k radesti
