Say it again...

I know I heard you right  
I've been a-lyin' awake at night  
Thinkin' about three words you said to me...

I know it's hard for you  
Sometimes you gotta let the feeling through  
I wanna know exactly how you feel  
Ooh yeah

I've tried to be patient  
And give you a little more time  
Now I need to be sure  
What's on your mind

Say it again (say it)  
Say the words I heard you whisper  
Say it again (say it)  
When last night we were together  
Lyin' next to me, you said to me  
(Say it) say it again

I knew right from the start  
You were livin' with a broken heart  
But baby, I knew, could take some time to heal...

But now I must confess  
The way you're fillin' me with happiness  
Think that we could be startin' somethin' real  
Ooh yeah...

I've tried to be patient  
And give you a little more time  
Now I need to be sure  
What's on your mind

Say it again (say it)  
Say the words I heard you whisper  
Say it again (say it)  
When last night we were together

Lyin' next to me, you said to me  
(Say it) say it again

And I just need to be sure  
That you're mine forever  
All I'm asking you for  
Is to tell me whether  
I should be trustin' in you  
Tell me if the words you whispered were true  
Whoh

(Say it, say it, say it, say it...)

Say it again (say it)  
Say the words I heard you whisper  
Say it again (say it)  
When last night we were together  
Lyin' next to me, you said to me  
(Say it)

Say it again (say it)  
Say the words I heard you whisper  
Say it again (say it)  
When last night we were together  
Lyin' next to me, you said to me  
(Say it) say it again
