Dear father I want you to see me now
Dear father I really wish you could see me now
Love was missing in the whole wide world
Whole wide world
Love was missing in the whole wide world
Whole wide world
Love was missing in the whole wide world
Whole wide world
You were missing in the whole wide world
I've been dreaming in this whole wide world
Been surrounded by the whole wide world
I've been shaking in this whole wide world
Been taken by this whole wide world
Dear Mother I want you to hear me now
Dear Mother I really wish you
Could hear me now
Love was missing in the whole wide world

Whole wide world
Love was missing in the whole wide world
Whole wide world
Love was missing in the whole wide world
Whole wide world
You was missing in the. whole wide world
I was frightened by this whole wide world
I've been hiding from the whole wide world
I was fighting with the whole wide world
I was slipping in the whole wide world
Lost my grip in the whole wide world
I've been tripping in the whole wide world
Oh Brother
