The language of love slips from my lovers tongue  
Cooler than ice cream and warmer than the sun  
Dumb hearts get broken just like China cups  
The language of love has left me broken on the rocks

But there's just one thing, just one thing  
But there's just one thing and I really wanna know

Who's that girl runnin' around with you?  
Tell me who's that girl runnin' around with you?  
Tell me who's that girl runnin' around with you?  
Tell me who's that girl?

The language of love has left me stony grey  
Tongue tied and twisted at the price I've had to pay  
Your careless notions have silenced these emotions  
Look at all the foolishness your lovers talk has done

Tell me, tell me who's that girl runnin' around with you?  
Tell me who's that girl runnin' around with you?  
Tell me who's that girl runnin' around with?  
I really wanna know who's it, who's that girl runnin'  
around with?  
I really wanna know who's it, who's that girl?
