Evan Dando
"Repeat"

Reaching out to look inside
I got it wrong again
I try so hard to take your side
Though I know you can't win

You're on your own
You're in the street
Come back home
Repeat

Take a fall or place your bet
It's the same damn thing
Crushing out a cigarette
Crack a fit of gin

If things go wrong
Admit defeat
If things go well
Repeat

And we got time to walk around
Drift away on solid ground
And take a plane to some place cold
Or somewhere warm if we get old

Stick to your guns
I find my feet
My legs won't run
Repeat
