Stay low
Soft, dark, and dreamless
Far beneath my nightmares and loneliness
Hate me
For breathing without you
I don't want to feel anymore for you

Grieving for you
I'm not grieving for you
Nothing real love can't undo
And though I may have lost my way
All paths lead straight to you

I long to be like you
Lie cold in the ground like you

Halo
Blinding wall between us
Melt away and leave us alone again
Humming, haunted somewhere out there
I believe that love can see us through in death

I long to be like you
Lie cold in the ground like you
There's room inside for two and I'm not grieving for
you
I'm coming for you

You're not alone
No matter what they told you you're not alone
I'll be right beside you forevermore

I long to be like you, sis
Lie cold in the ground like you did
There's room inside for two and I'm not grieving for
you
And as we lay in silent bliss
I know you remember me
I long to be like you
Lie cold in the ground like you
There's room inside for two and I'm not grieving for

you
I'm coming for you
