Feels like the height of the world
Like God in heaven gave us some turn Don't give in to
me,I swear I can't fix you Still in the dark,can you fix
me?
Free fall,free fall,all through our lives
If you love me don't let go of me
I won't be held down by who you used to be
He's nothing to me!
Feels like the height of the world That's like all my
screaming has gone unheard
And ah,you know I don't believe in you
Unsafe in the dark,how could I see?
If you loved me
Then let go of me
I won't be held down by who I was.
