Don't wanna be the one to walk away  
But I can't bear the thought of one more day  
I think I finally understand what it means to be lost

Can't find the road to lead us out of this  
A million miles from where we burned the bridge  
Can't keep pretending that every thing's gonna be  
alright

With the whole world falling down on me

Cross the oceans in my mind  
Find the strength to say goodbye  
In the end you never can  
Wash the blood from your hands

Falling so far from where we were before  
You'll never find what you've been searching for  
Something to fill the void and  
Make up for all of those missing pieces of you

Like I could only dream to do

Cross the oceans in my mind  
Find the strength to say goodbye  
Everything we believed in was a lie  
Cross the oceans in your mind  
Find a way to to blur the line  
In the end you never can  
Wash the blood from your hands

Oh, we never learn  
So we fall down again  
Hurt me, hurt me  
Find your way to dream within this nightmare

Cross the oceans in my mind  
Find the strength to say goodbye  
Everything we believed in was a lie  
Cross the oceans in your mind  
Find a way to to blur the line  
In the end you never can

Wash the blood from your hands
