(Verse)

Soon as I walked in I caught his eye
Grabbed me and said he wanna be mine
Told him IÂ'll hold up and take a snap
Yes a lot of these waitin so get in line
So listen to me, IÂ'm not a regular bird
Gotta be special to see my world
Whutchu gon do to get me preps?
To get with E V E you gotta have skills
So if you want it come and get it
Go, IÂ'll show you things you never saw
I can get you tickets front row to my peep show
Can be like an animal, really can you hear me though?
Need to see that you can have it all

(Chorus)

All I need is a beat like this
And I lose my mind
All I need is a girl like you
We can go all night
All I need is a beat like this
And I lose my mind
All I need is a girl like you
We can go all night
All night, all night
All night, all night

(Verse)

You ainÂ't ready for this boy, you know we scurr
It takes a lot to make the sexy kitty purr
No cheap thrills over here, fuck what you heard
Have you geekin like Screech, nerd
Uh boy why you sweatin me? You canÂ't even handle
me
Man you need to stop, canÂ't you see IÂ'm outta your
league?
To impress me you gotta have caliber
Put some precision in yo swing, Excalibur
I done gone pro, you still a amateur
You could test it out but boy youÂ'll damage er
Back to the drawing board, you gotta get yo swag up

You in love baby boy, man up

(Chorus)

All I need is a beat like this
And I lose my mind
All I need is a girl like you
We can go all night
All I need is a beat like this
And I lose my mind
All I need is a girl like you
We can go all night
All night, all night
All night, all night

(Verse)

Shawty say it real fast, that's how she want it
I told er I'm from Houston, understand we do it slowly
I said her eggs worth the snaking and she wish she
never known that
I hate to break the bad news but baby I bring the cobra
Shots of Henny and soda, man we twist it and roll it
From the door to the sofa she scream my name like yo
mother
She tell me that I'm the hottest, I say correction - the
coldest
We did it all night, she wake up makin mimosas
Gotta er caught in the feelings, textin me to the
mention
She givin me up her heart and we create a cause in a
minute
You are laughin with the trillest, trillest you ever
witnessed
I swear the first time I hit it you in it to get it deeply
Propain!

(Chorus)

All I need is a beat like this
And I lose my mind
All I need is a girl like you
We can go all night
All I need is a beat like this
And I lose my mind
All I need is a girl like you
We can go all night
All night, all night
All night, all night
