It's dark in here
So follow me
I'm so scared
Your hand's so cold

No, it can't be - I'd never leave you standing there
No, it can't be - I want you here with me

And I'll be waiting

Remember me?
I'm still the same
You seem so real
You haven't changed

No, it can't be - I'm dizzy from the twist of fate
No, it can't be - I want you here with me

No, it can't be - I'd never leave you standing there
No, it can't be - I want you here with me

And I'm shaking

No, it can't be - I'd never leave you standing there
No, it can't be - I want you here

No, it can't be - I'd never, never leave you there
No, no - I'd never leave you standing there

And I'll be waiting
