

Eve

"St. John's Night"

Visit "[St. John's Night](#)" on MotoLyrics.com

Don't raise the light
Sharpening the night
Where my hope hides

Don't say you'll go
These words are coming out slow
And even under
I see you there
I feel you there
I need you there

St. John's night
The ghosts will work it out right
In my mind

Don't avert your eyes
It's hard enough to show you mine
As they will tell you

I see you there
I feel you there
I need you there
My Dear...

I see you there
I feel you there
I need you there

I see you there
I feel you there
I need you there

Patience my love
Are these plans from above?
Because it rings in my like a drug

Don't make a sound
Are there pleas from the ground?
Picking me up when I'm down
