You me and she
what we gone do
baby, baby
Yo, I did it to myself
couldn't help the way I felt about him
sick when he wasn't there
like I never dealt with out him
played the fool by choice
all I had was this man
let him have the best of both world
cuz it was his plan
all the things I wanted to hear
he told me gently
whatever it was
nothing gave me plenty
told that he split whit his chic
but couldn't shake her
cuz she had his kid
so he fed her with his paper
first it started off like that dough for closure
started slackin off in fact t wasn't over

now my world is crumbling down

I'm feeling shakey

used to be a Superwomen

no bitch could replace me

wanted him to leave me alone

but I was cought up

thought I was strong

but broke down when breaking up was broght up

tried to really ride with this dude

I thought I loved him

and everytime I asked what I should do

he said trust him

Chorus:

You me and she

what we gone baby (trust me) baby (hold me)

You me and she

what we gone do baby (believe me) baby (you need me)

Damn, I must be crazy

feedin with the bullshit

attitude

and trying to hold out

that shit is useless

the more I tried to back up

the more he keep coming

Lie after lie (yea)

lying wasn't nothing

Tear after tear come down

telling me to be cool

all I need is you (baby)

nobody can be you

Believed him

he deceived me just to keep me

calling me from her house

saying that he needs me

I had to step back

he got me stressed out

this ain't what I planned

thought I had my life sketched out

I guess not

Love me to hurt me

hurt me to make-up

and makeup to deserve me

Chorus:

You me and she

what we gone baby (trust me) baby (hold me)

You me and she

what we gone do baby (believe me) baby (you need me)

Back and forth

with the he said she said

got me dissy

if I leave know the routine

he bad cuz he missme

to late cuz you had me

lost me (daddy)

move on

boss

no more floss

I'm gone

Arguements for hours

me and her comparing notes and

after all the screaming stopped

we compared quotes(yea)

you got sloppy

thought you wasn't that nigga

to let me caught you

heart didn't hurt till I covered up your tattoo

My statue

on a paddastool

every breath too

never knew the worst

till you felt what the best do

and I'm that

It's over now hope I stressed you but niggas like you

only be allowed when I let you

Chorus:
