STOP!

She was banging, but her loving was cold,
Keep it up, it's gonna be a love T-K-O,
Trying to find my direction,
Instead of feeling the love,
You break it all down into sections

BRIDGE

Cause I want you baby,
And I need you lady,
Girl stop acting shady,
Take a beat off, sing it to your lady

CHORUS 01

What's the matter, don't you love me? [love me now]
Don't you really care now? [care about me]
Oh, I'm about to lose my mind,
With your stop sign [with your stop sign]

I didn't mean to get myself so under,
Second time around, back round we go,
Feeling fine standing next to you,
So why you gotta make me Mr. Blue

She's telling me
Why,
She's thinking that she needs another, guy,
Somebody that ain't gonna make her, cry,
Well lady I could be there,
But your stop sign's not letting me be that

CHORUS 02

Why won't you let me hold you? [hold you tight]
In my warm embrace [sweet and tight]
Why won't you let my love shine,
In your stop sign? [in your stop sign]

RAP

Oh no,
Check the flow,
Get ready with the mic, let's go,

My sound,
Abstract,
Cut the loop and bring the beat back,
Bounce to the hot new flavor,
Turn up the high end on the system fader,
It ain't that I hate ya,
But I don't wanna know ya, see ya later

BRIDGE

Cause I want you baby,
And I need you lady, oh,
Girl stop acting shady,
Take a beat off, sing it to your lady

CHORUS 01

What's the matter, don't you love me? [love me now]
Don't you really care now? [care about me]
Oh, I'm about to lose my mind,
With your stop sign [with your stop sign]

Why won't you let my love shine,
In your stop sign?

In your stop sign?[4x]
