Stop!  
She was banging  
But lovin' was cold  
Keep it up, it's going  
to be a love TKO

Trying to find my direction  
Instead of feeling the love  
You break it all down into section

*[BRIDGE]*  
Cos I want you baby  
And I need you lady  
Don't stop acting shady  
Take a detour  
I'm singing to you lady

*[CHORUS]*  
What's the matter, don't  
you love me (Tell me now)  
Don't you really care now  
(care about you)  
Oh, I'm about to lose  
my mind with your stop sign

I didn't mean to get myself  
so involved  
Second time around back  
round we go  
It feels right when I'm next to you  
So why you gotta make me so blue

She's telling me  
Why  
She's thinking that she  
needs another  
Guy  
Somebody that ain't gonna  
make her  
Cry  
Well lady I can be that

But your stop sign's not letting  
you see that

Why won't you let me hold you  
(Hold you tight)  
In my warm embrace  
(Sweet embrace)  
Why won't you let my love shine  
In your stop sign [\*2]

Oh no check the flow  
You ready with the base  
Let's go  
My sound abstract  
Cut the loop and bring the  
beat back  
Bounce to the hot new flavour  
Turn up the high end on the  
system fader  
It ain't that I hate you  
But I don't wanna know  
Yo, I'll see you later

*[BRIDGE]*

*[CHORUS]*

Why won't you let me hold you  
(Hold you tight)  
In my warm embrace  
(Sweet embrace)  
Why won't you let my love shine

In your stop sign (I love you baby)  
In your stop sign  
(I need you baby)  
In your stop sign  
(I want you baby)  
*[REPEAT 3 TIMES]*
