You me and she, what we gonna do baby, baby

Yo, i did it to myself
couldnt help the way i felt about him
sick when he wasnt there
like i never delt with out him

played the fool by choice
all i had was this man
let him have the best of both worlds
cause it was his plan

all the things i wanted to hear
he told me gently
what ever it was
one in nothin gave me plenty

told me that he slept with this chick
but couldnt shake her
cuz she had his kids
so he fed her with his paper

first it started off like that
dough for closure
started slackin off
in fact it wasnt ova

now my world is crumbling down
im feelin shakey
used to be his super woman
no bitch could replace me

wanted him to leave me alone
but i was caught up
thought i was strong
broke down when breaking up was brought up

tried to really ride with this dude
i thought i loved him
and everytime id ask him what i should do
he said trust him

(chorus)

You me and she, what we gonna do baby, (trust me)

baby,

(hold me), yeah

You me and she what we gonna do baby, (believe me),

baby,

(ya need me) yeah

damn i must be crazy

feedin in da bull shit

attitudes and tryin to hold out

that shit was useless

the more i tried to back up

the more he kept comin

lie after lie(shit)

lyin wasnt nothin

tear after tear

come down tellin me be koo

all i need is you baby

nobody can be you

believed him

he deceieved me just to keep me

callin me from her spot

sayin how he need me

i had to step back

he got me stressed out

this aint what i planned

thought i had my life sketched out

huh, i guess not

love me or hurt me

hurt me to make up

and make up to deserve me

(chorus)

You me and she, what we gonna do baby, (trust me)

baby,

(hold me), yeah

You me and she what we gonna do baby, (believe me),

baby,

(ya need me) yeah

back and forth with the he said he said

got me dizzy

if i leave know the routine

he mad cuz he miss me

too late
cuz u had me lost me, daddy, move on
boss bitch no more floss
nigga im gone

arguments for hours
me and her comparing notes
and after all the screamin stopped
we comparing quotes

you got sloppy
thought you was that nigga
let me catch you
heart didnt hurt till i covered up your tatoo

my statue on da pedistal
every breathe too
neva knew the worst
till you felt what the best do

and im that its ova now
hope i stressed you
but niggaz only do it
will i lie when i let you

(chorus)
You me and she, what we gonna do baby, (trust me)
baby,
(hold me), yeah
You me and she what we gonna do baby, (believe me),
baby,
(ya need me) yeah

[repeat till fade]
