You know that my eyes never wonder  
Sure baby there's a lot to see  
But your spell has put me right under  
You never have to worry, never have to wonder 'bout  
me.

You see the way that I love you  
Ah honey can't you tell I do  
There's no doubt a man's a lookin  
You never have to worry, never have to wonder 'bout  
me.

Go to me, wanna get over what might be  
That was then now it's not anything likely  
I took a good look when I was much younger  
A good time when I was running free  
Now I'm telling you honey  
You never have to worry, never have to wonder 'bout  
me.

Go to me, wanna get over what might be  
That was then now it's not anything likely

You know my eyes never wonder  
Sure baby there's a lot to see  
But your spell has kept me right under  
You never have to worry, never have to wonder 'bout  
me.

Never have to wonder 'bout me.  
Never have to wonder 'bout me.  
Never have to wonder 'bout me.  
Never have to wonder 'bout me.  
Never have to wonder 'bout me.  
Never have to wonder 'bout me.  
Never have to wonder 'bout me.
