C1

Just take one in the mornin'  
Just take one before bed  
The dark blue is for forgiveness  
Take the green when you see red...

V1

A magic man came up to me  
He said dear boy, you need just these  
One dark blue, and one dark green  
Whose power sets you free...

C2

I take one in the mornin'  
I take one before bed  
The dark blue is for forgiveness  
Take the green when you see red...  
Bet you couldn't tell  
That I took two pills  
Gonna take two more  
Get 1000 thrills...

V2

A magic man I've come to be  
I said dear boy, you need just these  
One dark blue, and one dark green  
The first one's always free...

C3

You take one in the mornin'  
You take one before bed  
The dark blue is for forgiveness  
Take the green when you see red...

Bet you couldn't tell  
That I took two pills  
Gonna take two more  
Get 1000 thrills...

Bridge:

Don't have to justify why  
I like to live this way

These colors open my mind  
What's enough for you  
Ain't enough for me  
Ain't enough for me  
Not enough for me...

C4(BREAKDOWN)

Just take one in the mornin'  
Just take one before bed  
The dark blue is for forgiveness  
Take the green when you see red...

C5

Just take one in the mornin'  
Just take one before bed  
The dark blue is for forgiveness  
And the green, the green, the green is for the red...  
Bet you couldn't tell  
That I take two pills  
Gonna take two more  
And get my fuckin' thrills...  
2 Pills, 2 Pills, 2 Pills, 2 Pills...
