I'm all inside out. What's this all about  
You don't want me just I could .....

All those crazy days right behind your face  
Like a shadow of you

I guess I know by now you really don't want me  
Everytime when I see you pass me by  
I could be wrong and all ..... you love me  
Oh-uh-oh, you turn my blue sky black

Show what can I say if you don't wanna stay  
I don't understand why we have to land  
We had so much fun, we're up in the sun  
Oh-u-o, I don't wanna come down
