Don't you go, can't you see what I feel inside?
I need to show all the things I could do to you
Oh baby, please come and don't try to fool around
No time to fuss when you're right with me
My baby

Funny bunny boy, you're my secret little toy
Oh, I love to hold you tight
You make me feel so right

Funny bunny boy, you're my favorite kind of joy
No, you're gonna stay the night
It's gonna be all right

I'm in the mood for some action, I want you baby
I got you loaded for the things I will do with you
No need for lovin', babe

When I got you here with me
The satisfaction and I feel when you ride with me
My baby
