I adore back of necks
Beautifully shaven, gives me
Always, always, always, always, always, always
A pretty rush down my spine

All those boys with fascinating fingers
Working, creating, touching their tools, gives me
Always, always, always, always, always, always
A pretty rush down my spine, huh

Tell me stories, play me the tunes
That crack you up, gives me
Always, always, always, always, always, always, always
A pretty rush down my spine, hah
