What is it you want from me.  
You tell me that you are free  
But then you say no  
You want me to go  
What am I supposed to do.  
I can't hang around for you  
You know what I feel  
I want you for real.  
I had hoped there'd be some give and take.  
But now I know  
I've made a big mistake.

Chorus

I'm just a night  
Another night to you  
I'm just a name  
A number you once knew.  
I don't care much for my chances  
Cause you don't know what true romance is  
I'm just a night  
Another night to you

I have tried to make you see  
What you really meant to see  
But you turned away  
You've nothing to say  
I am tired of being used  
Being lied to being abused  
It just isn't on  
Be here or be gone.  
You must think my heart is made of steel  
So what is it?  
You're trying to conceal.

Chorus

I'm just a night  
Another night to you  
I'm just a name a number you once knew.  
And I don't care much for my chance  
Cause you don't know what true romance is  
I'm just a night, another night to you

I'm just a night, another night to you.
