### "Got It Figured Out"

Visit "[Got It Figured Out](#)" on [MotoLyrics.com](http://MotoLyrics.com)

So you think you got it figured out?  
Well that's why you can't relate  
And it's not something you can talk about  
Because it hurts your head to contemplate these  
Thoughts and words we throw around  
September turns to summer time  
Like up to down  
(Chorus)  
Nothing's gonna change  
Nothing's gonna change  
So you're set to go, you've got a plan  
You've got a blue print for your life  
So stand up straight and hold it in your hand  
I'll grab the other and i'll change it in one night  
It just takes one night  
1,2,3 we're counting off  
Pretending we're moving on  
But with our fingers crossed  
(Chorus)  
(post chorus)  
So don't be nervous, don't get too anxious  
Just know that nothings gonna change  
You feel so helpless you cant escape this  
You know that nothings gonna change  
Well i got back my waisted time and came to find that it  
took me  
Nowhere, nowhere  
Cause i came here on my own, all alone im not going  
Nowhere, nowhere  
(Post Chorus)  
(Chorus)
