Im not strong, Im not fast, when it comes to endurance  
I just cant last.  
So Ill get out of gym like I have in the past.  
Like the time you wore the useful body cast.

I always find a way.  
He always finds a way.  
No one can produce,  
an excellant excuse like you  
What can i say?  
He always finds a way

A pathetic weez, a powerful sneeze  
The time you filled your ears up with cottage cheese  
and said it was because of my sweat allergies  
That one got me out of gym with ease.

I always find a way.  
He always finds a way.  
He can easily create, with two abreviate, his gym  
period stay  
I always find a way.  
He always find a way.  
But not today.
