Welcome lads, now i must enforce,  
your participation in the obstacle coarse,  
designed by me with no remorse.

I'm the master of the gym,  
Master,I'm the master,I'm the master of the gym.  
Faster, for the master, patience has run thin.

This is a test that you won't forget,  
You'll be soaking wet, with sweat,  
Hurry up or you will regret, ending up like him.

Master,I'm the master,I'm the master of the gym.  
Faster, for the master, For your future will be grim.

(talking)  
How much more of this are we gonna take? i mean  
theres like 20 of us and 1 of him.

You have lost your authority, This here is immutity,  
from now on now it is plain to see,  
Were the Masters of the gym.

Masters, were the masters, Were the masters of the  
gym,  
Faster, for the masters, for your futures looking grim  
Masters, were the masters, now we are getting back at  
him.  
Masters, were the masters, Were the masters of the  
gym
